MARCH FOR YOUR HEALTH - FEED YOUR NEED TO READ

Collaborating to Jumpstart Eating Healthful Foods and Moving More in Illinois

Penny Roth, Joan Love & Vicki Rowe

Nutrition Month in Illinois

- March 2002 Nutrition Month theme "March For Your Health - Feed Your Need To Read" emphasized the importance of healthy eating, physical activity and reading to families.
- Collaboration by the Illinois Interagency Nutrition Council (INC) members jumpstarted this theme through the use of local programming around the state.

What is INC?

- The Illinois Interagency Nutrition Council (INC) promotes health and wellness through nutrition education, coordination of services and access to nutrition programs so that Illinois residents can have enough food for each month for their families.

<http://www.aces.uiuc.edu/~INC>

INC Collaborators:

U of I Extension EFNEP & FNP Nutrition Programs, Illinois Food Stamp Office, Illinois Hunger Coalition, Women, Infants and Children (WIC), Child Nutrition Programs, Special Supplemental Nutrition Program for Women, Infants and Children (WIC), Commodity Supplemental Food Program, Farmers Market Nutrition Program, Senior Nutrition Programs, Illinois Community Action Association, and Illinois Department of Public Health Chronic Disease programs.

Why "March For Your Health Feed Your Need To Read" Theme?

- More than 33 percent of Illinoisans are at risk of obesity.
- Only 24 percent of Illinoisans eat the recommended 5 or more servings of fruits and vegetables each day (Behavioral Risk Factor, 1999).

University of Illinois • United States Department of Agriculture • Local Extension Councils Cooperating
 University of Illinois Extension provides equal opportunities in programs and employment.
 The Family Nutrition Program is funded with Food Stamp Administrative funds by the Food, Nutrition & Consumer Services of the U.S. Department of Agriculture.

Walk Around Illinois

Local Programming:

- Books were provided to local agencies with a facilitator guide to help those reading on how to teach nutrition to children.
- Reading programs, with a nutrition focus, were coordinated at local libraries, Head Start Programs and childcare settings by community leaders.

- WIC programs across the state planned events that involved reading to children about nutrition and physical activity.
- University of Illinois Extension sponsors "Walk Around Illinois" to promote physical activity across the state. Local county programming encourages participation through health education and tracking how far people walk using pedometers.

OUTCOMES:

- The Governor of Illinois has declared March as Nutrition Month in Illinois. State Capitol events reached over 100 legislators and staffers.
- Events at health departments, WIC agencies, childcare and Head Start reached over 3,450 caregivers and children.
- One hundred local agencies received resources and materials to share with 250,000 WIC participants.
- Near North Health Services WIC program in Chicago had community leaders reading stories in both English and Spanish to 225 children in their clinics. They made personalized food books to take home and created book marks.
- The Governor proclaimed the First Monday in May as "Walk Day" in Illinois.
- Illinois residents have walked over 39,000 miles or about 30 times around Illinois.
